Produced by Gaumont-British Instructional Films. Re-edited and American narration added by United World Films

Reviews principles of circulation of air including influences of land and sea areas and seasonal changes that affect distribution of pressure and winds. Specific examples of areas in Africa and South America are illustrated with animation of isobars and winds, to show changes in pressure from month to month and the corresponding movement of wind belts. In Southeastern Asia and in Northern Australia, the pressure and winds are animated together, month by month to show movement of monsoon winds in these regions

MARINE COMMUNITIES—*Continued*

While many marine animals move about independently, they are often associated in communities—living together in some sort of dependence. A large mussel shell is seen which supports a marine community truly, remarkable in its concentrated variety: brachiopods, tunicates, annelids, barnacles, echinoderms, coelenterates. A hermit crab is surmounted by a dense bryozoan colony which effectively conceals the hermit and its associates. Spider crabs decorate themselves with algae and various invertebrates, forming a community which is beneficial to all concerned

Produced by Audio Productions. Narrated by Lowell Thomas

Traces the development of the vacuum tube. Shows in detail how it is made and pictures its many applications in everyday life with particular reference to its use as a repeater tube in telephone circuits

THE TRIODE: AMPLIFICATION. UW-Govt 14min sd b&w $30.85 621.342

* sh-c-ad Guide

OE 177. Produced by U.S. Office of Education. Accompanying filmstrip $1.25

Reviews the diode principle; compares the diode and triode; explains the triode amplifier circuit, amplification of D.C. voltage changes, amplification of alternating voltages, distortion, and amplification of audio frequency signals

LC card FiE 52-189

VACUUM TUBES. EBF 1943 11min sd b&w $50, rent $2.50 621.342

sh-c-ad

Educational consultant: Wilbur L. Beauchamp, University of Chicago

The three functions of the vacuum tube in radio are explained—in amplifying current to operate the loudspeaker, as a rectifier in detection, and as an oscillator tube in the transmission station to produce the carrier wave

VACUUM TUBES: ELECTRON THEORY AND THE DIODE TUBE. UW-Govt 1942 16min sd b&w $25.65 621.342

sh-c-ad

TF 1-470. Produced by the U.S. Air Force

Explains electron behavior in matter, electron sources in vacuum tubes, symbols of tubes, functioning of tube in a circuit, effect of plate voltage changes, space charge, and diode and duo-diode as reflectors

PRIMARY CELL. EBF 1944 11min sd b&w $50, rent $2.50 621.35

sh-c Guide

Educational consultant: Morris Meister, High School of Science, New York City
Demonstrates several phenomena of cells. Animated drawings explain the operation of the dry cell in terms of electron action including ionization of the electrolyte, electron flow through circuit, action at electrodes, polarization and depolarizer
Shows the operating characteristics of a cell and of several cells or batteries in both series and parallel connections

STORAGE BATTERY POWER. EdisonStorage Battery 1948 20min sd b&w free-loan 621.35

sh-c-ad

Produced by Audio Productions
Tells how Thomas Edison came to invent and perfect the nickel-iron-alkaline type of storage battery; also shows its manufacture and use

STORY OF THE STORAGE BATTERY. US BurMines 1947 30min sd b&w free-loan 621.35

jh-sh-c-ad

Produced in cooperation with the Willard Storage Battery Co.
Covers basic information on operation of modern storage battery. Opening scenes show varied used for storage batteries, such as starting automobiles and supplying power for lights and radio. Discussing the principle of the storage battery, a chemist illustrates how two unlike metals immersed in an acid solution will create an electric current. The primary battery, which cannot be recharged, and the secondary or storage battery, which can be used many times thru recharging, are explained. Latter part of film deals with manufacture of precision parts of modern battery which must meet certain mechanical, electrical and chemical precision standards

DISASSEMBLY, PART I (MN 2364a 16min $27.40): Demonstrates methods of inspection for all possible parts with methods of removal for all lines and parts in a complete breakdown of the engine

DISASSEMBLY, PART 2 (MN 2364b 17min $27.40): Step-by-step demonstration of tools used in disassembly of engine for either overhaul or maintenance, concluding with a review of the important steps of disassembly

COOPER BESSEMER DIESEL ENGINE MAINTENANCE—*Continued*

BEARING DISASSEMBLY AND INSPECTION (MN 2364c 14 min $27.40): Demonstrates how to disassemble main bearings, inspect, take readings on the bearing shell, and use care in handling the parts

BEARING REASSEMBLY (MN 2364d 11min $17.96): Demonstrates how to roll the bearing shell back into place; install cap, wedge blocks, and wedge shoe; and connect the lube oil

CYLINDER HEAD AND PISTON (MN 2364e 20min $31.69): Shows how to disassemble the cylinder head and piston; inspect the cover frame; check rocker arms; remove valves and crossheads, wedging piston, piston pin bolts, connecting rod, piston pin caps, and piston pin

INSPECTION OF PISTON (MN 2364f 10min $16.91): Demonstrates how to inspect piston covers and piston head, measure ring clearance remove and inspect rings and ring grooves, measure piston pin and bearings, and record measurements

REASSEMBLY OF PISTON (MN 2364g 11min $16.91): Demonstrates proper sequence of steps in reassembling pistons

CYLINDER HEAD (MN 2365h 16min $26.56): Demonstrates how to inspect and recondition the cylinder head

REASSEMBLY OF CYLINDER HEAD (MN 2364i 14min $24.82): Demonstrates how to reassemble and install the cylinder head; explains each operation and the use of proper tools

ENGINE REASSEMBLY, PART 1 (MN 2364j 16min $27.40): How to inspect the liner, seat the seal in position in the cylinder block, lower the liner and fit the piston into the liner, put shell into connecting rod bearing, and install the connecting rod bearing cap

ENGINE REASSEMBLY, PART 2 (MN 2364k 17min $28.25): How to install fire gasket, liner, cylinder nuts, motor header flange, liner drain plug, exhaust manifold gasket and cover-frame, lube oil lines, injector nozzle, air starting and fuel lines; adjust valve clearances; and install cylinder head cover

ENGINE REASSEMBLY, PART 3 (MN 2364 l 16min $25.68): How to secure exhaust manifold, install indicator cock and relief valve unit, secure air starting manifold and supply line, remove coupling gear, close indicator cocks, and tighten wrist pin bolt

INJECTOR BLOCK REMOVAL AND DISASSEMBLY (MN 2364m 15min $25.68): How to put throttle in closed position, remove inspection window and injector block, and complete disassembly of the injector block and valve parts at a work bench

INJECTOR BLOCK RECONDITIONING AND REASSEMBLY (MN 2364n 18min $29.11): How to clean parts, lap valve seats, remove lapping compound, reassemble all valve parts in the injector block, and reassemble auxiliary parts in the injector block

INJECTOR BLOCK REPLACEMENT AND TIMING (MN 2364o 13min $21.20): Demonstrates how to replace the injector block and connecting lines; explains in detail how to set the injector lifts

FUEL PUMP DISASSEMBLY (MN 2364p 15min $25.68): How to disconnect linkage, remove cover plate, disconnect all lines, remove fuel pump and disassemble at work bench, and remove all parts from pump housing

FUEL PUMP RECONDITIONING AND REASSEMBLY (MN 2364q 23min $36.17): How to recondition and reassemble parts of a fuel pump system

Produced by Vocational Guidance Films

Shows and explains the five ways of machining metals; employing the engine lathe, drill press, milling machine, planer and grinder. The importance of the knowledge of being able to use measuring devices and blueprint reading is presented. Beginning workers are shown working on a production line, operating either automatic or semi-automatic machine. As they advance, they become foremen, setup and maintenance men. The nature of the knowledge and training needed to hold one of these jobs is told. In this vocation are the toolmakers and the die makers. Closes with the work of the machine designer and presents suggestions on 'How to be a machinist'

Produced by Flory Films, Inc.

This story of surface and underground coal mining shows coal coming from a rich vein in West Virginia. It is mined efficiently with the most modern mechanized equipment. The technique of blasting and mining in strip mining is contrasted with the methods used underground—the different equipment used for each type of mining and the difference in the men's jobs are depicted. Formation of veins of coal is explained, as well as the importance of coal—our most valuable mineral resource—in the nation's economy

FLOATING DRYDOCK SERIES (7 films). UW-Govt 1943-5 sd b&w 623.8

sh-c-ad

Produced by the U.S. Dept. of the Navy
COMBAT DOCKING (13min $21.20): MN 1794-a. Stresses the importance of floating drydocks; shows an advance base sectional dock, an auxiliary repair dock, and a yard floating dock; and demonstrates how a ship is drawn in, inspected, and repaired. LC card FiE 52-2127
COMBAT DOCK: PRINCIPLES OF CONSTRUCTION AND OPERATION (17min $28.25): MN 1794-b. Shows three types of floating docks; explains the YFD (yard floating dock) type in detail; and demonstrates the procedure for pumping out water, putting a ship in drydock, and floating after repairs have been made. LC card FiE 52-2126
COMBAT DOCK: SELF DOCKING THE YFD; CONSTRUCTION AND OPERATION OF THE ARD (11min $16.91): MN 1794-c. Explains various types of yard floating docks, both timber and steel; and, by animation, shows the construction and sectional make-up of the 300-ton ARD (auxiliary repair dock). LC card FiE 52-2125
ABD: WING RAISING BY THE FLOTATION METHOD (10min $15.82) MN 1794-d. Describes the construction of the ABD (advanced base dock) and demonstrates by animation the raising of its wings by the flotation method. LC card FiE 52-2142
COMBAT DOCK: ABD MECHANICAL WING WALL RAISING (21min $33.42): MN 1794-e. Explains how a wall is raised by flotation and by the mechanical method employing jacks; and demonstrates by animation the main raise, transition stage, tensile stage, and easing the wall to the deck by the mechanical method. LC card FiE 52-2124
THE COMBAT DOCK: MOORING THE ABSD-1 (19min $29.99): MN 1794-f. Illustrates the selection and preparation of a site for mooring a combat dock; and demonstrates the step-by-step procedure for mooring an ABSD (advanced base sectional dock). LC card FiE 52-2123
COMBAT DOCK: ABSD, ADDITION OF SECTION AND CRANE TRANSFER (18min $29.11): MN 1794-g. Illustrates the method of adding a section to the ABSD (advanced base sectional dock), submerging one wing wall, and transferring the first crane. LC card FiE 52-2122

The role of highways in America's system of transportation and the major processes of roadbuilding.

Much of the actual construction of the modern, two way highway shown in the picture was filmed in Wisconsin. The surveying scenes were taken near the Wisconsin Dells, and the roadbed and grading scenes were made in northern Illinois and near Chicago, with the final photography showing a portion of the outer drive along Chicago's lakefront

All major construction steps are shown, from the first surveying, cutting, scraping and leveling of the roadbed thru assembling of materials, mixing and dumping of concrete, smoothing and finishing for the surface, to the completed highway open for traffic

Scenes of the work on the Bonneville and Grand Coulee Dams, show the tremendous force and vitality that make the Columbia not only the largest river flowing into the Pacific from the West coast of North America, but also one of the world's greatest sources of hydro-electric power. Navigable for ninety miles upstream by ocean-going vessels, the Columbia has carved, at its mouth, the only deep water harbour between San Francisco and Cape Flattery. It is also one of the world's important sources of fish

Shows some causes of nose-heaviness, tail-heaviness, yawing, torque tendency, rough propeller and ground looping; how to determine the particular cause of these troubles; and how to make the necessary adjustments
LC card FiE 52-272

AIRPLANE HYDRAULIC BRAKES: PRINCIPLES OF OPERATION. UW-Govt 1942 20min sd b&w $31.69 629.14

sh-c-ad

Produced by the U.S. Army Air Forces

Explains the need for brakes on modern airplanes and the basic principles of the brake itself

LC card FiE 52-1470

AIRPLANE HYDRAULIC BRAKES: TYPES, CONSTRUCTION AND ACTION. UW-Govt 1942 30min sd b&w $44.74 629.14

sh-c-ad

Produced by the U.S. Army Air Forces

Displays the Bendix, the Hayes and the Goodyear disc-type brakes

LC card FiE 52-1471

THE AIRPLANE MECHANIC. UW-Govt 1945 9min sd b&w (Aircraft work ser) $23.14 629.14

sh-c-ad

Produced for the U.S. Office of Education. Accompanying filmstrip $1.25

Orientation film for beginning airplane mechanics. Explains the skills and knowledge required to make satisfactory inspections and repairs; importance of thoroughness, skill, and dependability

LC card FiE 52-92

AIRPLANE STRUCTURES (4 films). UW-Govt 1941 sd b&w 629.14

sh-c-ad

Produced by the U.S. Army Air Forces

ALIGHTING GEAR (10min $15.82): TF 1-215. Defines alighting gear, shows loads exerted, and explains principles of operation, component parts, and devices that warn pilots of aligning gear's position

LC card FiE 52-1482

FUSELAGE CONSTRUCTION (8min $12.61): TF 1-213. Describes the fuselage and shows loads exerted upon its component parts. Explains the principle of truss construction and attachment of wing and the use of bulkheads and longitudinal stringers

LC card FiE 52-1481

STRUCTURAL UNITS, MATERIALS, AND LOADS FOR WHICH DESIGNED (8min $12.61): TF 1-211. Describes the four structural units of an airplane fuselage, wings, control surfaces, and landing gear. Discusses the positive and negative loads which each must withstand

LC card FiE 52-1467

WING CONSTRUCTION (10min $16.91): TF 1-212. Describes the construction and functions of airplane wings; the chord spars, and ribs; materials used in construction; and the use of interior and skin bracing to withstand the forces of thrust and drag

LC card FiE 52-1480

ATTACHING AND ALIGNING WINGS. UW-Govt 1944 20min sd b&w $38.59 629.14

sh-c-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to inspect a damaged wing, remove the damaged wing and attach a new wing, level the airplane and align the wing, complete the installation of the wing and inspect the finished job

LC card FiE 52-269

BATTLES FOR VICTORY. KansasU 1944 23min sd b&w rent $75, $1.20 per week 629.14

sh-c-ad

Produced by the Boeing Airplane Co.

Introduces the new employee to some of the rules and regulations followed in a large aircraft plant

BRITAIN'S COMET. BIS 1953 20min sd b&w $55, rent $2.50 629.14

jh-sh-c-ad

Produced by G. B. Instructional, Ltd.

Shows the building, testing, and approval for commercial use of the British-made Comet jet airliner, a four-engine craft which approaches the speed of 500 miles per hour

BRITAIN'S NEW AIRCRAFT. BIS 1951 10min sd b&w $32.50, rent $1.50 629.14

sh-c-ad

Produced for the British Foreign Office and British Board of Trade by the British Movietonews

In a yearly exhibition at Farnborough Airfield, near London, Britain displays aircraft manufactured for private, commercial, and military use

LC card FiA 52-877

BUILDING A BOMBER. UW-Govt 1941 20min sd b&w $30.83 629.14

sh-c-ad

Produced by the Office of War Information.

Details of the B-26, U.S. Army medium bomber

LC card FiE 52-771

BUILDING A BOX BEAM SPAR. UW-Govt 1944 21min sd b&w $39.44 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Teaches how to assemble the parts of the spar, in a jig; how to prepare surfaces for gluing; how to apply aircraft glue; how to clamp parts together for a good glue bond; how to varnish surfaces for protection from moisture and how to use jigs for accurate drilling

LC card FiE 52-311

BUILDING A WOODEN RIB. UW-Govt 1944 19min sd b&w $37.73 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to assemble, fit and glue wooden parts in a jig; how to prepare the framework for ply-wood gussets; how to fit and position the gussets to the framework; how to apply aircraft glue; how to drive nails and use clamps for good glue bond; and how to apply varnish

LC card FiE 52-312

CONNECTING AND ADJUSTING CONTROLS. UW-Govt 1944 19min sd b&w $36.89 629.14

sh-c-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Inspecting and adjusting the elevator and rudder control cables; how to line up and safety a turnbuckle; how to remove and replace a damaged aileron control cable and to adjust it for the proper aileron travel; and how to make a final check-up for control cables before entering the job in the log

LC card FiE 52-265

CONSTRUCTION OF A LIGHT AIRPLANE. PennStCol-AV 1942 28min sd b&w $75, rent $1.50 629.14

* **sh-c-ad**

Sponsored by Piper Aircraft Co.

An introductory sequence functionally identifies the five major parts of an airplane. The steps in the actual construction of a 'Piper Cub' are then shown

Would be especially useful in adult and high school pre-flight courses to familiarize students with nomenclature and appearance of the constructional details of an airplane and in vocational guidance groups for illustrations of various skills required and types of work done in airplane manufacturing

Evaluation in Ed. Screen, Feb. 1943, p71

ELEMENTS OF ELECTRICITY AS APPLIED TO IGNITION SYSTEMS. UW-Govt 1941 28min sd b&w $41.32 629.14

sh-ad

Produced by the U.S. Air Force

Portrays elementary phenomena in electricity and magnetism and the application of these principles to engine ignition systems

LC card FiE 52-1469

ESSENTIAL PARTS AND TYPES OF PLANES. Bray 1942 10min sd b&w $45, rent $2.50 629.14

sh-c-ad

Demonstrating how planes fly, and showing how various types of planes are designed to perform specific jobs. Illustrated by flight models as well as by real Army bombers, Atlantic Clippers, and Navy flying patrol boats

FABRICATING METAL AIRCRAFT. UW-Govt 1945 14min sd b&w $30.85 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Shows part sheet metal departments play in aircraft fabrication; methods by which sheet metal may be cut and formed; methods by which sheet metal parts may be assembled; and mating major assemblies

LC card FiE 52-157

INSPECTING AND ADJUSTING HYDRAULIC BRAKES. UW-Govt 1945 13min sd b&w $28.32 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to inspect the hydraulic brake system of an airplane; how to bleed the hydraulic brakes; how to add fluid to the hydraulic system reservoir; how hydraulic brakes operate; and the importance of entering the job in the log book

LC card FiE 52-282

INSPECTION OF MINOR ASSEMBLIES. UW-Govt 1944 16min sd b&w $33.46 629.14

sh-ad Guide

A U.S. Office of Education production Accompanying filmstrip $1.25

The use of inspection work sheets is shown; how to plan inspection routine; how to inspect a minor assembly in detail; how to read rivet specifications; and how to inspect rivets

LC card FiE 52-37

INSPECTION OF PLUMBING AND PIPING. UW-Govt 1944 17min sd b&w $34.30 629.14

sh-ad Guide

A U.S. Office of Education production. Accompanying filmstrip $1.25

How to use inspection work sheets; how to plan inspection routine; how to inspect plumbing and piping in detail; how to verify the materials used; how to inspect installation of the part in the plane; and how to identify different plumbing lines

LC card FiE 52-25

INSPECTION OF SHEET METAL PARTS. UW-Govt 1944 20min sd b&w $38.59 629.14

sh-ad Guide

A U.S. Office of Education production. Accompanying filmstrip $1.25

How to use inspection work sheets; how to plan an inspection routine; how to inspect a sheet metal part in detail; how to make visual inspection; and how to make spot checks

LC card FiE 52-26

INSTALLING AND ALIGNING TAIL SURFACES. UW-Govt 1944 19min sd b&w $30.74 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Inspecting damaged tail surfaces and removing them; how to prepare new parts for installation; how to install new stabilizers, elevators and rudder; and how to inspect the job before entering it in logbook

LC card FiE 52-270

INSTALLING LANDING GEAR. UW-Govt 1944 19min sd b&w $37.73 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to remove damaged landing gear; replace old bolts, nuts and cotters with new parts; install an aircraft bolt properly; assemble and install a new landing gear; and check alignment and track of wheels

LC card FiE 52-271

INTRODUCTION TO AIRPLANE RIVETING. JamHandy 1942 22min sd b&w $66 629.14

sh-ad

Riveting in airplane manufacture and maintenance showing types of rivets, storage, heat treatment and spacing of rivets, laying out the work and drilling the rivet holes and riveting operations

LET'S STOP WASTE. BoeingAirplaneCo 1951 7½min sd color $85, free-loan 629.14

ad

Deals with the problem of expensive wastefullness caused by the careless handling of tools and materials within an aircraft manufacturing plant. Intended for industrial plant personnel

MAINTENANCE OF PLEXIGLASS AND LUCITE. UW-Govt 1945 37min sd b&w $54.49 629.14

sh-c-ad

MN 2218-b. Produced by the U.S. Navy

Shows how to clean plexiglass with soap and water or cleaning fluids; remove scratches, repair cracks and bullet holes

LC card FiE 52-1220

MAKING A FIVE-TUCK SPLICE. UW-Govt 1944 26min sd b&w $45.62 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Instruction in soldering a cable end to prevent unlaying while splicing; how to use a splicing clamp and a marlin spike; how to make the first tuck and the four succeeding tucks; how to taper the splice; and how to set, serve and shellac the splice

LC card FiE 52-24

MAKING A WRAPPED AND SOLDERED SPLICE. UW-Govt 1944 15min sd b&w $32.58 629.14

sh-ad Guide

Produced by U.S. Office of Education. Accompanying filmstrip $1.25

Making a ball soldered terminal; how to prevent the wires from unlaying when cut; how to fit a cable to a thimble; how to use a splicing clamp; how to make the wire wrap; how to provide for inspection spacing, and how to get the solder thoroughly sweated into the space between the wrapping and the thimble

LC card FiE 52-35

MASTERY OF THE AIR. BIS 1953 17min sd b&w $55, rent $2.50 629.14

jh-sh-c-ad

Sponsored by British Central Office of Information

The very latest in aircraft for civilian and military use are seen at the Farnborough Air Show including the Bristol Britannia, the Aiglet Trainer, the Bristol 173 helicopter, the twin-engined, delta-winged Gloster Javelin and the de Havilland 110

PERIODIC INSPECTION: AIRPLANE. UW-Govt 1945 17min sd b&w $34.30 **629.14**

sh-c-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Emphasizes the importance and meaning of thoroughness in performing a periodic inspection, showing a complete detailed inspection of an aileron as an example. Shows briefly the inspection of other parts of the airplane

LC card FiE 52-155

A PLANE IS BORN. UW-Govt 1951 20min sd b&w $31.69 **629.14**

sh-c-ad

CA 19. Produced by U.S. Civil Aeronautics Administration

Shows how the Civil Aeronautics Administration and aircraft manufacturers work together in approving new types of aircraft

LC card FiE 52-2019

PREFLIGHT INSPECTION: AIRPLANE. UW-Govt 1945 17min sd b&w $34.30 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

Shows the necessity for careful and thorough inspection; how to use the 'circle method' to give a complete and systematic inspection; and how each part—landing gear, wings, fuselage, tail surfaces, cabin, controls, instruments—is inspected

LC card FiE 52-156

REPAIRING A WOODEN RIB. UW-Govt 1945 24min sd b&w $43.91 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to remove gussets and broken rib parts; splice a section of cap strip; cut and finish a scarf joint; make a new truss member; and make and assemble gussets and reinforcement plates

LC card FiE 52-275

REPAIRING AIRCRAFT TIRES. UW-Govt 1945 sd b&w $38.59 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to inspect an airplane tire; how to remove the tire; how to remove the tube from the tire; how to vulcanize the tube; how to repair a cut in the tire; how to reinstall the wheel; and the importance of entering the job in the log book

LC card FiE 52-236

REPAIRING AND RELINING MECHANICAL BRAKES. UW-Govt 1945 21min sd b&w $39.44 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to check brake action; how to remove wheel and inspect brakes; how to disassemble wheel and remove brake lining; how to install new brake lining; how to replace brake cables and how to adjust brakes

LC card FiE 52-281

REPAIRING STRUCTURAL TUBING. UW-Govt 1945 20min sd b&w $38.59 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to straighten a bent tube; round out a tube; remove a damaged section of tube; prepare a replacement section; prepare internal reinforcing sleeves; and assemble and weld the replacement section and sleeves

Repair work on an airplane

LC card FiE 52-276

RIB STITCHING. UW-Govt 1942 20min sd b&w $31.69 **629.14**

sh-c-ad

Shows how fabric covering is laced or stitched on airplane wings

LC card FiE 52-1022

SERVICING AN AIRPLANE. UW-Govt 1945 sd b&w $34.30 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to perform the various routine servicing operations on a light airplane including proper and safe methods of pushing a plane on the ground, cleaning an airplane, refueling, changing oil, inflating tires and starting the engine. Shows hand signals for the pilot

LC card FiE 52-266

SPLICING A WOODEN SPAR. UW-Govt 1945 21min sd b&w $39.44 **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to determine the splice area and lay out the splices; how to cut a scarf joint on a spar; how to finish a scarf by hand; how to glue and assemble reinforcement plates; and how to trim a spar to shape and size

LC card FiE 52-274

STORY OF WILLOW RUN. Ford 1945 30min sd b&w free-loan **629.14**

jh-sh-c-ad Guide

How automobile production methods were applied to big plane construction at the Willow Run bomber plant; how the giant aircraft were assembled in sections like automobiles, and how workers were trained by the thousands to do their jobs

LC card FiA 52-302

SWAGING CABLE TERMINALS. UW-Govt 1944 12min sd b&w $26.54 **629.14**

sh-ad Guide

Produced by U.S. Office of Education. Accompanying filmstrip $1.25

Selecting the dies to fit the cable: how to measure and to mark the cable accurately; how to anchor the cable in the terminal; how to set up the swaging machine; how to check work for uniformity and other defects; and how to remove and to clean machine parts

LC card FiE 52-267

TOMORROW WE FLY. UW-Govt 1943 22min sd b&w $33.42 **629.14**

sh-c-ad

MN 1254. Produced by Springer Pictures for the U.S. Navy

Follows a pre-flight student thru his training course and the materials for a dive bomber thru the assembly plant. Plane and student meet when both are ready to fly

TROUBLE SHOOTING PROBLEMS (3 parts). UW-Govt 1945 sd b&w **629.14**

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrips $1.25 each

Part I. MECHANICAL AND LUBRICATION (10min, $24.89): Shows how to find what part of the airplane engine is causing trouble and the importance of checking obvious symptoms when trouble shooting; how to locate and correct causes of mechanical and lubrication trouble when the engine runs rough, and when there are low oil pressure and high oil temperature; and the importance of checking engine operation after trouble shooting

LC card FiE 52-147

Part II. IGNITION (19min, $36.89): Shows how to find what system of the airplane engine is causing trouble; how to locate trouble within the ignition system when an engine fails

TROUBLE SHOOTING PROBLEMS—*Cont.*
to start, when it runs rough and when it fails to develop full power; and how to repair and check engine operation after trouble shooting
LC card FiE 52-250

Part III. FUEL INDUCTION (16min, $34.30): Shows how to find what system of the airplane engine is causing trouble and how to locate the trouble within the system; how to trouble shoot in the fuel system for failure to develop full power, for rough running at idling speed and for overheating; and how to check engine operation after trouble shooting
LC card FiE 52-160

WING ASSEMBLY (3 parts). UW-Govt 1944 sd b&w 629.14

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

PART I. THE NOSE SECTION (20min, $38.59): Positioning the main spar in the jig; how to establish the leading edge line; how to fit the ribs into position; how to install the webbed ribs, junction rib, regular ribs and leading edge strip; how to apply and glue the skins; how to apply and remove pressure strips; and how to finish the surface of the nose section
LC card FiE 52-284

PART II. THE INBOARD PANEL (19min, $36.89): Installing subassemblies in a jig; how to fit and install the junction rib, regular ribs, compression rib and root rib; how to install and adjust hardware fittings; how to apply and glue the skins; how to reinforce skin openings; how to apply and remove pressure strips; how to finish the outside surface; and how to inspect the completed assembly
LC card FiE 52-285

PART III. THE BOW TIP (24min, $43.07): Shows how to fit the bow tip strip; how to mortise the bow tip strip to the leading edge strip; how to make the spar tip joint; how to install the ribs; how to shape the bow tip; how to apply and glue the bow tip skins; how to finish the bow tip; and how to varnish the surface

AVIATION ENGINE. Brandon 1941 18min sd b&w $90, rent $4 (si $72, rent $3) C29.1435

sh-c-ad

Instructional film for the primary air student designed to overcome training difficulties by bringing a modern airplane engine into the classroom. Shows the various major units that make up radial type of engine, identifies and indicates functions. Also depicts the various sub-assemblies, identifies, indicates functions and illustrates method of locating cracks and shows the reassembled engine on test block being 'run-in'

CARBURETION. UW-Govt 1941 37min sd b&w $53.63 629.1435

sh-ad

Produced by the U.S. Air Force
Shows by means of animated drawings various types of aircraft engine carburetors and their principles of operation

DISASSEMBLING THE ENGINE. UW-Govt 1945 13min sd b&w $28.32 629.1435

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25
Shows how to remove the oil pump, valve tappet, and gear case cover assemblies; how to separate crankcase and remove crankshaft assembly and camshaft; and how to disassemble crankshaft and gear case cover assemblies
LC card FiE 52-151

ENGINE CHANGE: INSTALLATION. UW-Govt 1945 17min sd b&w $34.30 629.1435

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25
Safety precautions to be observed when installing an engine; how to inspect engine mount, controls and firewall; how to connect controls and attachments; how to ground-test the engine; and how to prepare for check flight
LC card FiE 52-153

ENGINE CHANGE: REMOVAL. UW-Govt 1945 17min sd b&w $34.30 629.1435

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25
Safety precautions to be observed when romoving an engine; how to disconnect controls and attachments; how to remove the engine; and how to inspect the mount, firewall and controls

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25
How to clean, inspect and recondition the piston assembly of an airplane; how to measure clearances; and how to install new piston rings
LC card FiE 52-254

INSPECTING AND RECONDITIONING VALVE ASSEMBLY. UW-Govt 1945 25min sd b&w $44.78 629.1435

sh-c-ad Guide

OE 264. Produced for the U.S. Office of Education by Audio Productions. Accompanying filmstrip $1.25
How to disassemble the valve mechanism of an airplane and clean and recondition the parts; how to measure clearances; how to reassemble the valve mechanism; and how to reinstall the pistons and cylinders
LC card FiE 52-255

OVERHAULING CAMSHAFT ASSEMBLY AND CRANKCASE SECTION. UW-Govt 1945 19min sd b&w $36.89 629.1435

sh-ad Guide

OE 270. Produced for the U.S. Office of Education by Audio Productions. Accompanying filmstrip $1.25
How to inspect the camshaft and gear cover assembly parts; insepct and recondition the crankcase section; measure crankcase bearings; and inspect and recondition the remaining parts
LC card FiE 52-149

OVERHAULING CRANKSHAFT ASSEMBLY. UW-Govt 1945 19min sd b&w $36.89 629.1435

sh-ad Guide

OE 269. Produced for the U.S. Office of Education by Audio Productions. Accompanying filmstrip $1.25
How to clean the parts of a disassembled engine; inspect and recondition crankshaft assembly parts; determine clearances and check for out-of-round; and check the clearances against specifications
LC card FiE 52-150

OVERHAULING THE CARBURETOR. UW-Govt 1945 23min sd b&w $42.19 629.1435

sh-ad Guide

OE 267. Produced for the U.S. Office of Education by Audio Productions. Accompanying filmstrip $1.25
How to remove the carburetor assembly from the engine; disassemble, clean, inspect, and reassemble the carburetor; check the fuel level; and reinstall the carburetor assembly
LC card FiE 52-251

PERIODIC INSPECTION: ENGINE. UW-Govt 1945 23min sd b&w $42.19 629.1435

sh-ad Guide

OE 283. Produced for the U.S. Office of Education by Audio Productions. Accompanying filmstrip $1.25

How to inspect the general condition of an engine; examine internal parts; check ignition and fuel system; examine the propeller; and prepare an engine for run-up

LC card FiE 52-257

PREFLIGHT INSPECTION: ENGINE. UW-Govt 1945 13min sd b&w $28.32 629.1435

sh-ad Guide

OE 281. Produced for the U.S. Office of Education by Herbert Kerkow. Accompanying filmstrip $1.25

How to check the general condition of an aircraft engine; inspect the fuel system, ignition system, and engine fittings and attachments; conduct and engine run-up; and complete the inspection procedure

LC card FiE 52-256

REASSEMBLING THE ENGINE. UW-Govt 1945 22min sd b&w $41.17 629.1435

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to reassemble the crankshaft and camshaft assemblies, crankcase section and gear case cover assembly; how to reinstall the oil pump; and how to complete reassembly of the engine

LC card FiE 52-148

REMOVING AND INSPECTING CYLINDERS. UW-Govt 1945 18min sd b&w $36.01 629.1435

sh-ad Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to remove the cylinder assemblies from the engine; disassemble the cylinder assemblies; and clean, inspect, and recondition the cylinders

LC card FiE 52-253

SERVICING AND TIMING MAGNETOS. UW-Govt 1945 16min sd b&w $33.46 629.1435

sh-c Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to remove magnetos from the airplane engine and install and adjust new points; explains the importance of ignition timing; and shows how to reinstall and time the magnetos

LC card FiE 52-258

SERVICING SPARK PLUGS AND IGNITION WIRING. UW-Govt 1945 22min sd b&w $41.17 629.1435

sh-c Guide

Produced by the U.S. Office of Education. Accompanying filmstrip $1.25

How to remove the spark plugs and ignition wires on an airplane; how to clean, inspect and adjust spark plugs; how to prepare new ignition wires for installation; and how to reinstall the spark plugs and ignition wires

Produced for the British Council by Greenpark Productions

A short history of the method and theory of agriculture which has developed in England over the centuries. Animated diagrams show the wastefulness of medieval farming and the great advantages of modern crop rotation. Britain is a small country with a large population and only by scientific agriculture can she get the maximum yield from her limited acres. This film reflects recent methods used in one of the most highly mechanized farming systems in the world

RAIN ON THE PLAINS. UW-Govt 1938 (rev. 1944) 9min sd b&w $13.67 631.4

jh-sh-c-ad

Produced by the U.S. Dept. of Agriculture

Shows the causes and effects of wind erosion and dust storms on the southern Great Plains, and the steps taken to reclaim ruined land. The rainfall in this area, if conserved, is usually sufficient to produce good crops. The urgent need is to conserve the rainfall so that a cover crop can be grown to hold the soil in place. To do this the Soil Conservation Service recommends certain farm practices including contour tillage, terracing, strip cropping with alternate strips of wind-resistant crops, sodding, planting of windbreaks, and the construction of dams—all of which are demonstrated in this film

A series of experiments show how raindrops scatter the precious topsoil and cause erosion. Conservation measures are necessary to combat the harmful effects of rainfall and turn it into a blessing. Mulching cover crops, strip-cropping, terracing and contouring are seen to be the agents that successfully prevent soil erosion

PRODUCTION CONTROL, PART 1.: The systematic procedure by which management regulates production output to meet fluctuating product requirements of the company's sales efforts consists of four main steps: routing, scheduling, dispatching, and follow-up. The film develops the first step fully, showing the basic imoprtance of routing in manufacturing the productivity of men and machines. The film demonstrates the basic approach and techniques of the methods analyser in studying the manufacturing cycle and indicates methods for gaining employee cooperation

LC card FiA 52-464

PRODUCTION CONTROL, PART II: The three final steps in production control—scheduling, dispatching, and follow-up—demonstrate the use of the master schedule and of the shop schedule, and show dispatching in both centralized and decentralized forms

LC card FiA 52-466

METHODS ANALYSIS: Methods analysis is used to reduce production costs by increasing administration. The film shows a job analyst preparing a job specification that lists the skills and abilities required for the job, and analyzes several methods of job rating. The work of time study engineers is described

LC card FiA 52-465

JOB EVALUATION: Management determines the requirements, duties, and pay scales of various jobs through job evaluation and wage

LC card Fi A52-456

QUALITY CONTROL: Industry controls the quality of its product by keeping check on the variable factors in manufacturing: men, machines, materials, manufacturing conditions, etc. This film describes factors in setting quality standards and the effect of higher or lower quality standards on manufacturing cost and selling price

A map shows the area of the richest deposits in Malaya. Scenes of prospectors locating the deposits are followed by illustrations of the two main mining methods: open cast by means of the hydraulic method or by power shovel and dredging by means of an enormous dredge which is practically a floating factory. The dreding method is considered the most productive and efficient. Final sequence shows how the dredge picks up over 15,000 tons of earth daily then processes it until from 75 to 77 per cent pure tin is derived. This tin ore is then placed in sacks and shipped to Singapore for refining and smelting

Necessity of accurate clearance between punch and dies and relation of clearance to thickness and hardness of metal are shown
LC card FiE 52-634
DRAWING, STRETCHING AND STAMPING (22min): Techniques of sheet-metal working are illustrated by animated drawings. Opens with reference to properties of cold-working and heat-treatable aluminum alloys and purpose of heat-treating and refrigerating metals. Functions of single-action and double-action or toggle drawing press are described
LC card FiE 52-636
GENERAL SHEET METAL PRACTICE (21min): Opens with a description of aluminum alloys and their designations. There follow references to heat treatment and degrees of hardness of metals, art of shaping, choice of tools for working, and stresses the flow of metal which take place when metal is bent. Relation of radius of bend to thickness of metal, 'springback,' use of bending dies and power brake, and method of flanging are illustrated
LC card FiE 52-633
SPINNING (17min): Techniques of metal spinning illustrated by animated drawings thruout film. Includes tools required; functions of spinning tools; laying down, beading, and cutting or trimming tools; and importance of smooth tool faces
LC card FiE 52-637
TUBE AND SHAPE BENDING (14min): Techniques of bending are illustrated by animated drawings thruout the pictures. Includes problems in tube bending and principle factors involved; handbending small tubes and uses of template and bending pegs; bending by means of power driven machine

ASSEMBLING IN A JIG: DRILLING AND RIVETING. UW-Govt 1943 21min sd b&w $39.44 671.5
sh-c-ad Guide
Produced by U.S. Office of Education. Accompanying filmstrip $1.25
Shows the procedure for drilling, burring, dimpling, and riveting an aircraft sheet metal assembly emphasizing (1) following a pattern in drilling, (2) fastening parts securely before riveting, and (3) riveting procedures for long and short seams
LC card FiE 52-38

ASSEMBLING IN A JIG: FITTING AND LINING UP. UW-Govt 1943 16min sd b&w $33.46 671.5
sh-c-ad Guide
Produced by the U.S. Office of Education. Accompanying filmstrip $1.25
Shows how aircraft sheet metal parts are assembled in a precision assembly jig, how aircraft sheet metal parts are fitted together and accurately lined up, how to use skin fasteners, and how to correct misaligned holes
LC card FiE 52-36

FORMING ON ROTARY MACHINES. UW-Govt 1945 17min sd b&w $34.30 671.5
sh-c-ad
Produced by U.S. Office of Education. Accompanying filmstrip $1.25
Shows how to mark bend lines on blank sheet from a template for forming on the slip roll machine; how to adjust the rolls to form to the required radius; how to adjust a bending roll machine to form a bead at the specified edge distance; and to form a shallow bead and then the final bead
LC card FiE 52-94

FORMING ON THE STRETCHING MACHINE. UW-Govt 1945 17min sd b&w $34.30 671.5

671.52 Welding

HOW TO WELD ALUMINUM (3 parts). USBur Mines and Alcoa 1947 sd b&w free-loan 671.52
sh-c-ad
ARC WELDING (10min): Describes metal arc, carbon arc, and atomic hydrogen processes for welding aluminum and their uses. Proper equipment and protection of personnel are illustrated in arc welding scenes. The efficiency and speed of the atomic hydrogen process also is disclosed
LC card FiE 52-649
RESISTANCE WELDING (12min): Describes a method by which parts fabricated from aluminum sheet and extrusions are welded under heat and pressure. The principle of two types of spot welding machines are explained
LC card FiE 52-650
TORCH WELDING (17min): Reveals the behavior of aluminum under the welder's torch and shows in detail the progressive steps necessary to make a good torch weld. Preparation of welding surfaces, proper manipulation of the welding torch and examples of torch welding of aluminum forgings, castings, sheet and plate are graphically depicted
LC card FiE 52-648

SPLIT SECOND FASTENING. NelsonStud Welding 1949 18min sd color free-loan 671.52

sh-c-ad

Produced by Jack Fitzgerald

The Nelson method of stud welding or 'fusing to steel' is illustrated. The economies and advantages of stud welding are shown by many of its cost-saving applications in the construction and metalworking industries—automotive, railroad, shipbuilding, electrical, heating equipment, steel, and others

WELDING OPERATOR. Mahnke 1942 11min sd b&w (Your life work ser) $55 671.52

jh-sh-ad Guide

Produced by Vocational Guidance Films

The first part of the film shows oxy-acetylene equipment being used by an operator; and illustrates flat and overhead welding and cutting

Electric resistance and arc welding are also presented. Among the operations shown are spot welding, arc, including the shielded arc, metal table and carbon rod methods. Typical jobs in both production and job welding are explained. The knowledge and physical requirements necessary to be a good welding operator are brought out

Concludes by illustrating the opportunities in steel mills and automotive industries, in air craft, building, bridge and pipe line work

WELDING PROCEDURES SERIES. OXYGEN CUTTING (5 films). UW-Govt 1944 sd b&w 671.52

sh-c-ad

Produced by the U.S. Office of Education. Correlated filmstrips $1.25 each

THE GUIDED BEND TEST (17min $35.15): OE 189. How to prepare groove weld and fillet weld test specimens for the guided bend test; and make the test. Shows causes of failure in bending

MANUAL CUTTING A BEVEL: FREEHAND (13min $28.32): OE 187. How to select a tip for bevel cutting; clean a tip; adjust oxygen and acetylene pressure for bevel cutting; and cut a vevel with minimum drag

MANUAL CUTTING TO A LINE: FREEHAND (21min $39.44): OE 186. How to assemble an oxyacetylene cutting outfit; select the proper cutting tip; adjust oxygen and acetylene delivery pressures; adjust the preheating cutting flames; make a 90 degree freehand cut; and disassemble the cutting outfit

MANUAL CUTTING TO A SHAPE: FREEHAND GUIDED (16min $33.46): OE 188. How to make plywood template for cutting; make a tip guide device; position a template for cutting; use the guide device; and use a circle device

OXY-ACETYLENE WELDING: LIGHT METAL (21min $39.44): OE 190. How to assemble a gas welding outfit; adjust gas pressures; adjust the flame; and make a butt weld and a T weld in light tubing

671.521 Electric welding

ADVANTAGES OF A-C WELDING. Westinghouse 1950 19min sd color $140, rent apply 671.521

sh-c-ad

Produced by B. K. Blake, Inc.

Explains how arc welding equipment can be used quickly and easily on all types of mild steel, cast iron, stainless steel and alloy steels. Designed to help solve problems of vertical, overhead and horizontal welding; light and heavy fabrication, and both inside and outside construction

ARC WELDING AT WORK. GenElectric 1948 27min sd color $200 free-loan 671.521

* sh-c-ad

Produced by Raphael G. Wolff Studios

Emphasizes that arc welding is the most economical, strongest and lightest fabrication method for many industrial operations. Explains and demonstrates the three main types of arc welding—metal arc welding, atomic-hydrogen arc welding, and insert arc welding

ARC WELDING STAINLESS STEEL. AlleghenyLudlum 1943 20min sd color free-loan 671.521

sh-c-ad

The principles and factors that govern the arc welding of stainless steel. Explains what and how the arc welder works, as well as the reasons why

Both the traditional and the modern point of view are presented thru the attitude of a girl, who is outraged by modern painting, and a painter, who tries to convey why modern artists paint in their particular styles. The audience is not given a pat answer but an attempt is made to stimulate further thought about the approaches

Shows painting by Van Gogh, Picasso, Mondrian, Dali, Miro and others. The scene is the Museum of Modern Art's Penthouse

DOUBLE AUXILIARIES (15min): Begins with a quick review of orthographic projection on three principal planes and on auxiliary planes, then points out that a new condition is introduced if the object to be drawn has a slanting face that is not perpendicular to any of the principal planes. The film shows why a single auxiliary view does not give an accurate picture of an oblique face. The theory of the double auxiliary or oblique view is then described in detail, using the visualization effects of combined animated drawings and animated models

LC card FiA 52-2232

SINGLE AUXILIARIES (20min): Begins with a brief review of the principles of orthographic prrojection and goes on to show that the three views obtained by projection on the three principal planes do not represent the true shape of some surfaces of an object that has one or more slanting faces. This condition is shown to require projection of the slanting surface on a plane which is parallel to it and is not one of the principal planes. Thus auxiliary projection is explained and defined

Produced by Harmon Foundation in cooperation with China Institute in America. Written and directed by Wango Weng
Demonstrates the technique of floral painting. Begins by showing the process of rubbing the sticks of pigment in shallow pans of water to get the water colors. Then proceeding to her paper, the artist plans her picture as a whole, drawing on her treasury of memory and impression. The various methods of brush strokes are also demonstrated
Points out Chinese theory of composition, the balance of empty and solid—the distinction between the guest and the host. The importance of the signature and the seal in Chinese painting is also stressed

JOHN MARIN. AFFlms 1951 24min sd color $170, rent $15 751
jh-sh-c-ad
Produced by James Davis. The music of Bach, Marin's favorite composer, played by the American pianist Rosalind Tureck, accompanies the film
Shows how John Marin, the dean of American water colorists, transposes the world about him into expressive paintings into works of art that express the inherent movement of nature and his own reaction to it. The color camera reveals how completely the hues of nature enter his pallette—the greens, blues and olives of a Maine seascape, the greys, pinks and browns of the New York skyline. Marin's methods of applying paint are examined, and something of his philosophy of art—often in direct quotation from the artist himself

Tells the story of a girl who, despite her father's prejudice, married the man she loved. A few years later, on Christmas Eve, the young couple's mountain home is destroyed by a snow slide and they, with their small child are forced to seek shelter in the village. Turned away from her father's door, the young mother with her child joins her husband in the only refuge he can find—a stable. Here they are seen by the village priest who is inspired to write the hymn "Silent Night." The singing of the hymn in the Christmas service next day brings about a reconciliation between the father and his daughter and her family

No. 920. Produced by The National Film Board of Canada
From inside a CBC studio we see Allan Mills broadcast his familiar invitation to 'sing a little and play a little,' with his customary introduction that every song tells a story and singing a song is always fun. The three ballads sung in this film are "The Farmer's Cursed Wife" whom even the devil wouldn't keep. "Barbara Allen," the sentimental ballad of many versions, and "Jack the Sailor" who was swallowed by a whale. Against suitably designed backgrounds animated puppets enact the story told by each song

Produced by James Broughton
"A picturesque account of the search of a particularly naive young man for his ideal mate—and his rather overwhelming success at the film's conclusion. Though told with tongue in cheek, it has considerable to say about loneliness in a busy world. The film takes a not undeserved poke at those psychoanalytical literary travelogues so popular today featuring the neurotic as hero. Mr Broughton reads the commentary while Weldon Kees, himself a poet and painter arranged and played the musical accompaniment." Distributor

COLOR DANCES #1. AFFlms 1952 8min sd color $90, rent $5 792.93

jh-sh-c-ad

Produced by James Davis

"An entirely new development by Jim Davis with producing moving forms of color and the effects are very different from those in his reflections and refraction series. Here the results are more fluid and graceful. But it is related to his other abstract films in that the moving colors suggest a kind of visual music or abstract ballet

"There are eight short dances in this film. In the first four dances the bright colors are set against a white background and in the last four the colors appear light against a black background. The combined effects of the flowing colors and the concert orchestra musical accompaniment is very light and gay." Distributor

Produced by Curtis Harrington. Music by Ernest Gold. Rented for $9 for a no admission showing. $17.50 if admission is charged

"A climactic, revelatory episode from the existence of an adolescent Narcissus. The protagonist here is a questioning seeker to whom the truth of his own nature is gradually, inevitably revealed. The continuity of the film establishes an image of desire, always there, just beyond and then, in the moment of fulfillment, the truth is precipitated, and the question is answered. An attempt to present the motion picture itself as a unique filmic reality developed out of the significant juxtaposition of the imaginative and the real, the inner image and the outer vision." Consciously exploits the camera along lines set down by Mack Sennett, Rene Clair and the great silent comedians. A satire on mystery films, it opens on our heroine, garrotted and knifed. The detectives bustle onto the scene, brows knit for deduction. In the ensuing chase—which proceeds without regard for time, place or logic—they are eliminated one by one until ultimately even the murderer himself is done away with. The picture ends with our heroine smiling in gentle triumph

"Beginning as a comic, satirical comment on American middle-class life, this film ends as a minor tragedy in the same mileu. In between the first and last parts of the film lies the poetic, anguished, love-quest of the hero, caught up in the fatality of a false love. His pursuit is portrayed as a dream which finally assumes such force that is casts him back into reality destroyed. Illustrates four of the rhythm patterns used by the Indian to express his relationships with nature—and in turn reveal his power as a close observer of nature. Bird photography shows the patterns of the prairie grouse courting, and the eagle in flight. Dances by Tom Two Arrows then show the Indian abstraction of these patterns. Similarly, the buffalo and deer dances are seen in juxtaposition with their sources in nature

* jh-sh-ad

Condensed from a 73min film released in 1937

Offers a great abundance of beautiful pictures of expert skiers and only the ghost of a plot. Slow motion photography has been used both for comedy purposes and to illustrate the fine points of skiing technique

Men and women dash down precipitous slopes, leap from crag to crag, even from roof to roof of little Alpine huts, and make beautiful herringbone patterns as they climb the snowy mountain slopes. They turn and twist, negotiate seemingly impossible curves, take falls that seem incredible to the onlooker

What there is of a story has to do with a fox hunt on skis over the Alps, with Hannes Schneider and Leni Riefenstahl as the foxes
